Drug-drug interactions in anti-HCV therapy: a comparison among options available in Italy

Di Perri G., Cariti G

Infectious Diseases Unit, Department of Medical Sciences, University of Torino, Amedeo di Savoia Hospital, Torino, Italy

Erratum

Following publication of the original article

(Le Infezioni in Medicina, 2019, vol: 27 (4): pp: 239-250)

we became aware of the following errors:

In table 3a, pag. 245, the interaction between GLE/PIB and Omeprazole does not require dosage adjustments and the correct recommendation is A (allowed) instead of NR (not recommended). The original explanation in the text is correct.
